

Operation Chariot: The St Nazaire Raid 1942 Casemate Illustrated

Operation Chariot was a daring raid on the heavily fortified German-occupied port of St Nazaire in France on March 28, 1942. The raid was carried out by a combined force of Royal Navy, Royal Marines, and British Army commandos. The raiders' objective was to destroy the Normandie Dock, the only dry dock on the Atlantic coast capable of handling the German battleship Tirpitz.

The raid was a success, with the commandos successfully destroying the Normandie Dock and inflicting heavy casualties on the German garrison. However, the raid came at a cost, with 169 commandos killed, wounded, or captured.
